

# 手機支架

建議使用八吋x八吋  
(20cm x 20cm)的厚紙摺疊

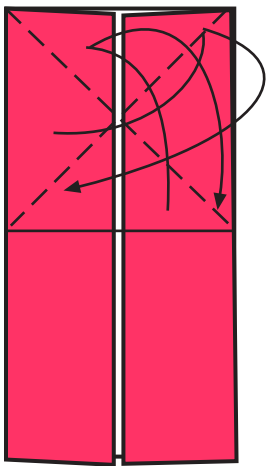

創作：周文成  
制圖：招叔

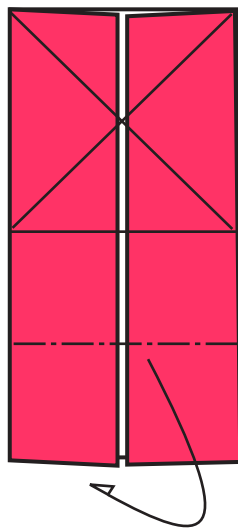

1.對半摺十字線

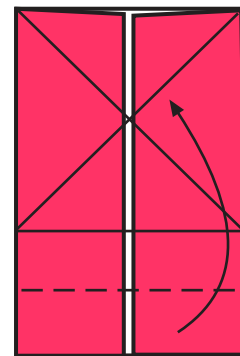

2.兩邊線對齊中線對摺

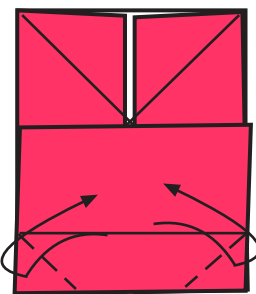

3.摺兩條對角線

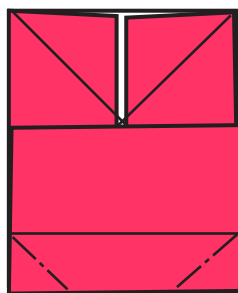

4.下邊的正方形對半摺向後面。

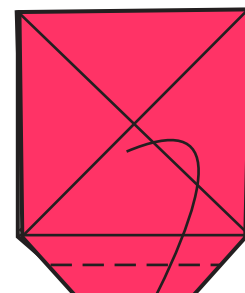

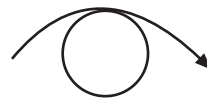

5.下邊半個正方形再對摺，底層往上打開。

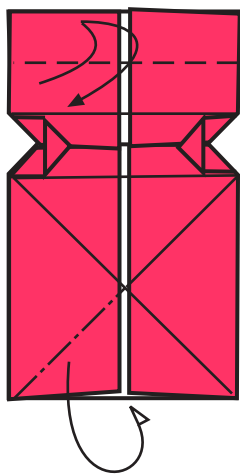

6.

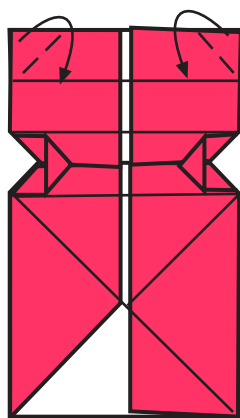

7.兩個底角內翻摺。

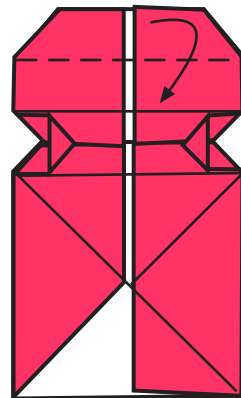

8.

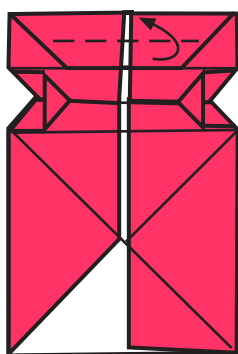

9.上邊那半個正方形對摺後打開。把下邊那三角形摺向中間。

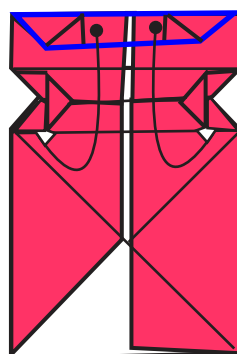

10.

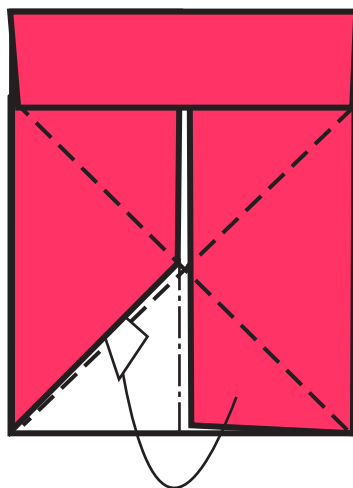

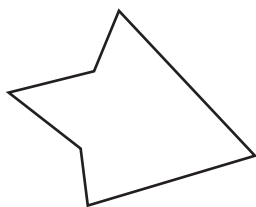

11.

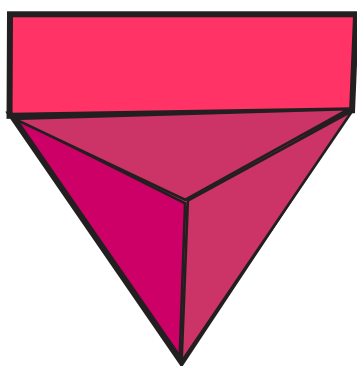

12.

13.把用藍色圈著的那梯形插進下面那兩個三角形內成自鎖結構。

14.這樣方便收藏，使用的時候，可按照如下方法把下面的正方形自鎖成一個三角形立方體，利用三角形的穩定性，就可支撐起一部手機。

15.把下方那兩個三角形摺疊在一起插進中間自鎖後，形成一個三角形立方體，翻轉後即可以用來支撐手機。
