enlarged detail

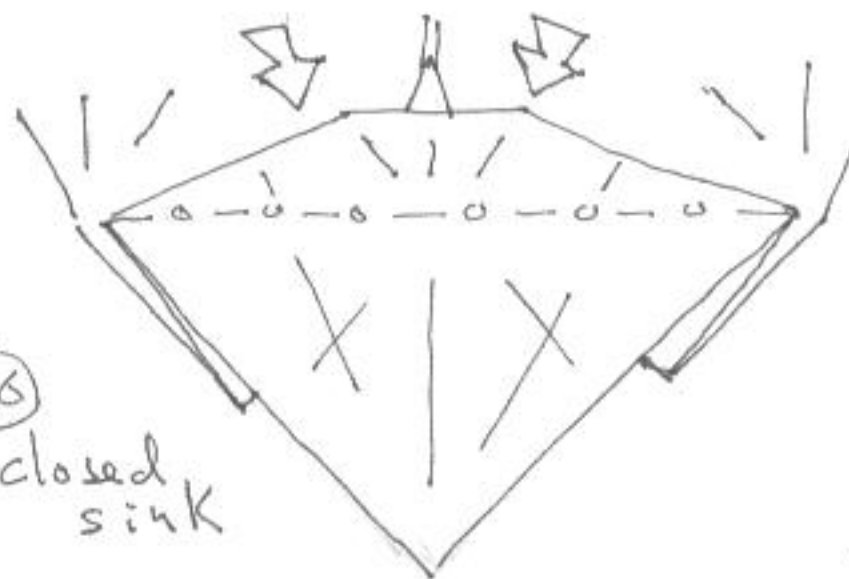

14

reverse fold both flaps  
to the sides

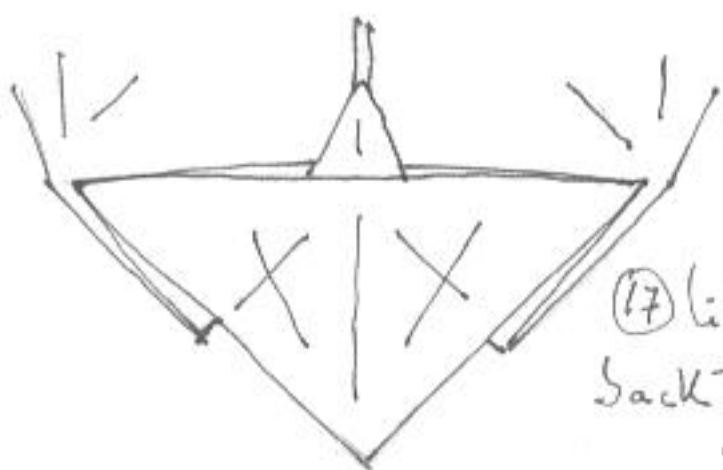

15

fold small flap up

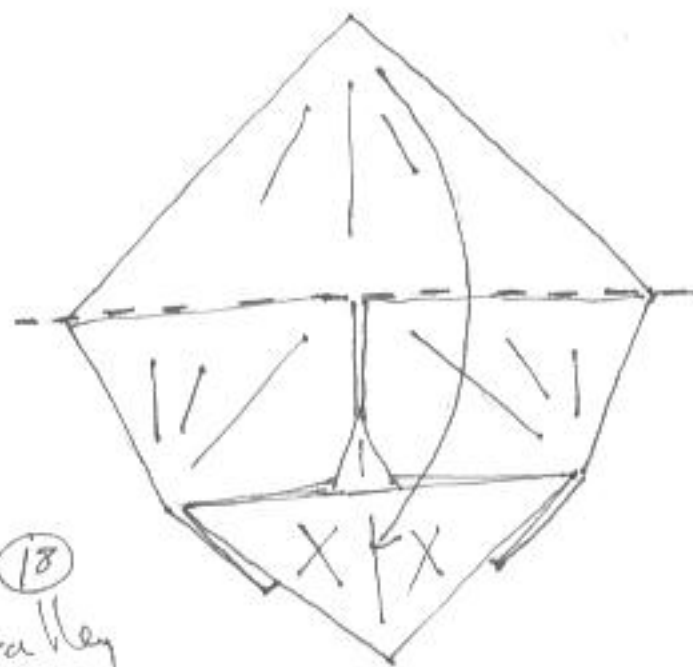

16

closed  
sink

17 like this.  
back to normal  
size view.

18

valley  
down

# Caballo

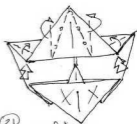

3

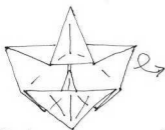

19 fold and unfold two times.

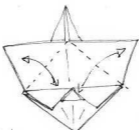

20 valley up through the intersection creases down.

21 swivel fold

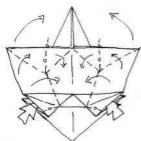

22 turn over side to side

23 fold and unfold both sides

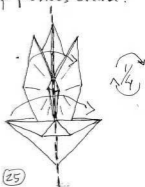

24 fold and unfold bisecting angle. crease only to intersection of previous crease.

25 fold a rabbit ear on each side with a swivel fold at the bottom.

26 fold the two thin strips that surpass the middle line.

27 fold the whole model in half and rotate  $\frac{1}{4}$  turn.

Casallo

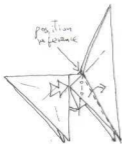

4

26 outside reverse fold.  
fold lines run over  
thick layers underneath

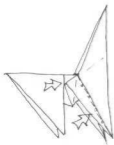

27 crimp simultaneously  
swinging the structure on the right  
clockwise. See next step for  
final position.

28 spash fold  
the corner, while  
valley folding  
the leg.  
Repeat behind

29 unfold to  
step 28  
Repeat behind

30  
Open sink  
Repeat behind.

31  
like this.  
Next 2 steps  
enlarged detail.

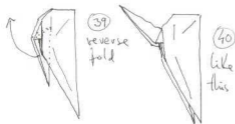

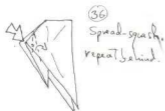

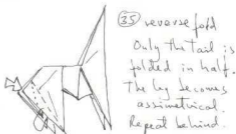

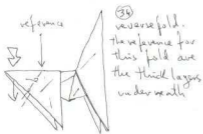

32  
reverse fold  
this hidden  
corner.  
repeat behind

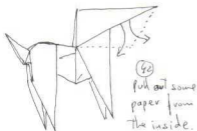

33

6

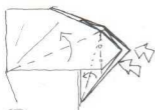

43 Reverse fold  
Only head shown  
in next few steps.

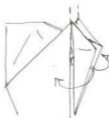

44 crease  
sharply

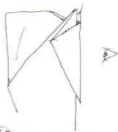

45 sink. Thick layers  
beneath can be  
valley-folded

46 swivel fold on  
existing creases  
both sides

47 simple-fold  
flaps on both sides  
to the left.

48  
like this. next steps  
look at the horse  
"face to face"

49 Open head flaps  
at 90° to the  
rest of the model

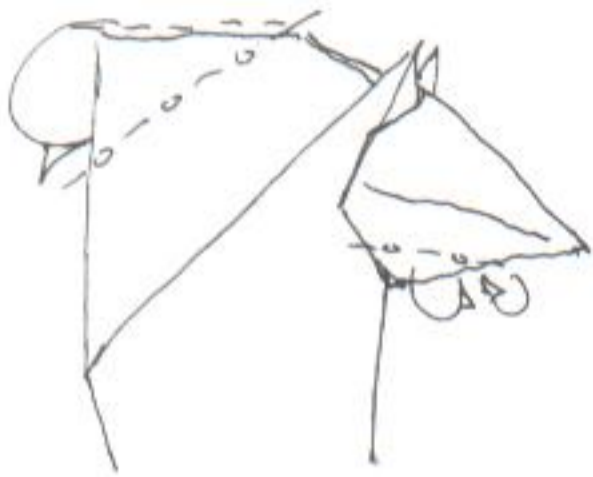

50 press the flap  
on the sides to  
open the single  
layer beneath while  
performing the folds  
shown on the forehead

51 (back to side view)  
- fold behind  
- repeat behind

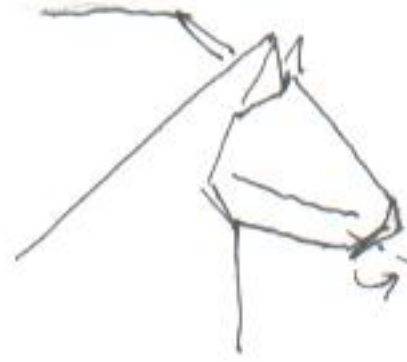

Caballos

52 reverse fold the mane.  
fold a thin strip from the head. repeat behind.

53 make a very small double rabbit-ear

54 fold the tip out

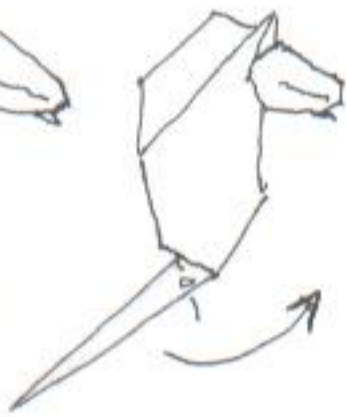

55 like this

Right front leg

56 double rabbit-ear

57 reverse fold

58 reverse fold

59 outside reverse and open a bit to shape a hoof

60

Left front leg

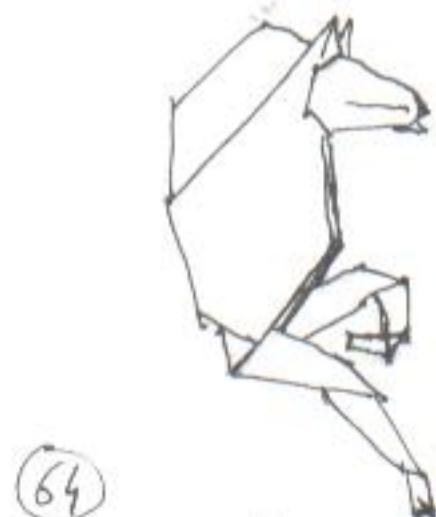

61 double rabbit-ear

62 reverse

63 outside reverse and open to shape the hoof.

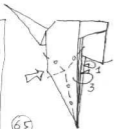

64 proposed position for front legs. others are possible of course!

# Caballo

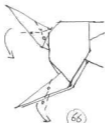

8

Hind legs & Tail

65

double rabbit-ear.  
Note the distribution  
of the layers and  
the sinking at the rear.  
Repeat behind.

66

reverse fold legs.  
repeat behind.  
Shape tail  
with a double reverse.

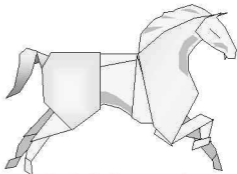

67

- open just a bit  
the tip of the tail  
- open the tip of  
the legs to shape  
de hooves

68

soft  
shapping  
- ears point forwards  
- curve neck  
- shape head  
- round belly and backbone  
- round tail and bum.  
- soft crumple 3 or 4 times

- it stands up easily  
on three legs.
